

Greetings,

I am a technology professional with over 18 years of experience. I excel at supporting executive level leaders as well as teams of individual contributors. I have led efforts in strategic planning for leadership teams and always welcome more responsibilities. I enjoy bringing remote teams together to be more effective with communication and collaboration. I consistently demonstrate commitment to employees and dedication to my employer. Please see my letters of recommendation below.

Thank you,  
Brittney Kase

Letter of recommendation for Brittney Kase:

I have known Brittney for the last 2 and half years. During that time I have had the pleasure of working with Brittney on a number of different topics and projects.

Brittney has been a valued and actively engaged member of the Pearson Security team working in both Operations and Delivery. Brittney possesses a 'can do' attitude and always delivers on time and will always go beyond the expected parameters. Her upbeat personality and engaging personal style enable her to interact effectively with people at all levels within a business. I know Brittney will be a valued employee and asset to any organisation that should decide to offer her a role. I was more than happy to write this reference for Brittney as I'm confident she has the ethics and skills to add value wherever she chooses to work.

Jason Walton, VP Security Operations

Personal reference for Brittney Kase:

Brittney has been an employee working directly for me, with executives on my leadership team and directly with many other members of my team. She initially started as my team Executive Assistant and upon recognizing her capacity to grow, proceeded to take on more complex roles, ending up being a security analyst on our security services portfolio team.

Brittney was able to move quickly from her Executive Assistant role to non-assistant roles which directly contributed to delivering our programs and services. Brittney is highly self-motivated and requires very little direction once she has clearly understood and developed her objectives. She strives to be challenged and is happy to invest her time to develop relevant new skills. Brittney was recognized by several of my leaders for her ability to help lead a team to deliver projects in a timely manner, with completeness, all while nurturing a positive culture. Brittney is a conscientious worker, and showed schedule flexibility in working with teams around the world. She has a way of working with teams in a manner which is humble and effective. I'd be happy to answer any specific questions about my time working with Brittney and discuss her potential fit for your role.

Rod Wallace, Chief Information Security Officer
